City Launches New Development Services Web Pages on its Site

Access to Planning, GIS, Zoning Information, Forms and More

FALLS CHURCH, VA. – In an ongoing effort to update the City's Web site, www.ci.falls-church.va.us, the City is happy to announce the launch of its new Development Services Department Web page. The Development Services Department comprises the planning, geographic information system, urban forestry, and zoning divisions, handling the City's long-range planning and policy efforts.

Visitors of the new Development Services Department Web site can now access detailed information on all of the department's forms and applications for site plans, traffic impact analysis, historical architectural review, variance information and more. Data can now be retrieved from the City's interactive geographic mapping system, or GIS; the City's Comprehensive Plans and Design Guidelines can be viewed in their entirety; and a host of arbor information is available online such as tree removal, tree protection during construction, and grading plan procedures.

All of the Planning, Zoning and Urban Forestry divisions' applications and forms are also available in an Adobe Acrobat format and may be downloaded from the City's Web site.

To get the most up-to-date information on planning, zoning, GIS and urban forestry in the City, visit <http://www.ci.falls-church.va.us/government/developmentServices/devservices.html>.

For more information about the City's Web site, please contact the Office of Communications at 703-248-5003 or via e-mail at publicinfo@ci.falls-church.va.us.
